

Product substitution does not always remove recorded options

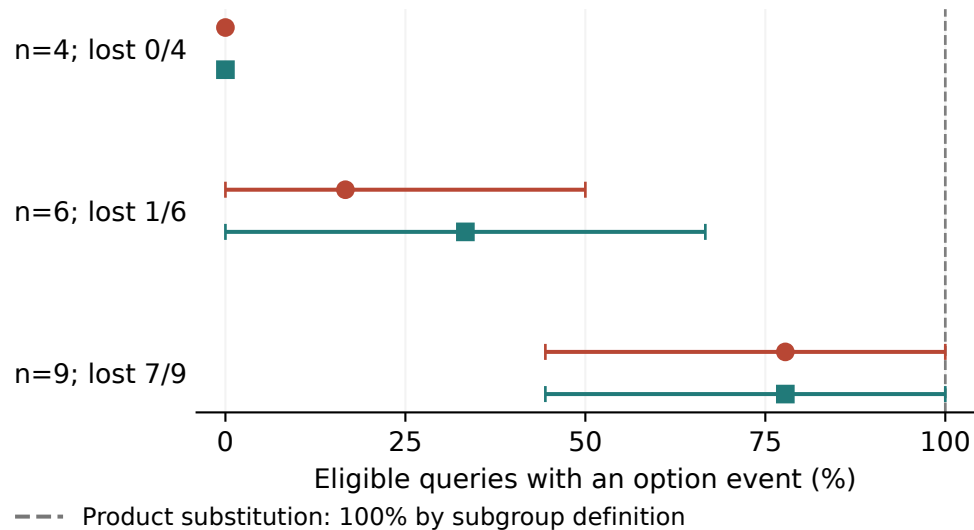

WANDS / BGE native / C0 source order vs C1 reversal / Top-20 / Exact judgments

308 evaluation queries | **187 changed relevant membership** | **73 exact Recall cancellations**

Strict metadata eligibility

Loss and gain on each eligible support

Each field has a different complete-observation support; excluded queries are not zero-change observations.

Unadjusted 95% query bootstrap intervals, 10,000 draws. All supports are tiny; [0,0] does not establish impossibility.
